SUMMARY

My primary goal is to help organizations leverage their data to drive business value. Whether it's developing predictive models to forecast sales, optimizing supply chain operations, or building recommendation systems to improve customer experience, I have the technical expertise and analytical skills to deliver actionable insights that can help businesses make better decisions.

EXPERIENCE

Data Scientist Associate - 3 Months
Blackcoffer   **April 2022 - June 2022, Delhi**
· Understood the client's problems & requirements and solved them using appropriate tools.
· Collaborated with other developers to meet client requirements and got a chance to develop communication & interpersonal skills while working with clients of different origins.

Data Annotator - 6 Months
Strata Unison   **September 2021 - February 2022, New York, United States**
· Successfully completed annotation of 5000+ images with higher accuracy and precision.
· Strata simplify the complexities of transportation planning & infrastructure management.

App Developer Intern - 4 Months
Ananta Resource Management   **May 2021 - August 2021, Mumbai**
· Utilized Microsoft's Power Apps for creating Naukri portal and Yatri Bhavan apps.
· Figma is used for creating UI designs for apps.
· Given presentations on various technical and non-technical topics as a part of learning at ARM.

PROJECTS

Mood-based Music Recommendation System Using Brainwaves (Research Project)
January 2023 - Invalid date
· Suggested music based on an individual's current mood, as measured by their brainwaves using an electroencephalogram (EEG), by extracting relevant features from a dataset of brainwave signals and classifying signal segments into mood categories.
· Developed a system that recommended music tracks based upon the user's mood, which enhanced their listening experience and emotional well-being.

EDUCATION

B.Tech in CSE, Specialization in Data Science
D Y Patil International University · Pune, India · 2023

Intermediate , Mathematics
Nezamia Public School · 2018

CERTIFICATIONS

Data Science with Python
Simplilearn · 2021

Microsoft AI Classroom Series
Microsoft · 2021

INVOLVEMENT

Data Science Code-a-thon Contest
TECHGIG
· Achieved Rank 1 in Data Science Code-a-thon Contest and is awarded for outstanding performance and exemplary contribution on TechGig.com

Poet & Writer
D Y Patil International University · Mehfil
· Participated in the session of poetry held by Mehfil Club, resulting in the poetry getting featured on the club's official social media page.

SKILLS

Python, Machine Learning, Deep Learning, Web-Automation, Tableau, Power BI, Java, MySQL, R Programming, Big Data, NLP, Statistics & Probability, Google Big Query, Google Data Studio, Amazon Web Services, Tensorflow Framework, R Shiny, Javascript Data Preprocessing, Data engineering, Computer Vision, Data Mining, MS-Excel, Critical thinking, Entrepreneurship, Self-taught MBA.
